CERTIFIED NATIONWIDE DATA DESTRUCTION

REMOVE THE RISK!

 100% SECURITY GUARANTEED

POSRG is AAA Certified for physical destruction of data media and sanitization of Hard Drives and Solid State Drives through the National Association for Information Destruction (NAID).

The most secure way to ensure your information is safely disposed of is to have it destroyed by a NAID AAA Certified Company.

POSRG is proud to offer NAID AAA Certified Data Destruction services. POSRG helps local and nationwide companies create a plan for the effective destruction and disposal of hardware related media that is private, secure, irreversible and environmentally friendly.

We thought we would try POSRG's E-Waste services after seeing how diligent they are about the recycling side, and the great reporting on the destruction side. We made the switch permanent.

MARK C.
DIRECTOR OF TECHNICAL SERVICES,
CRATE&BARREL

NAID AAA Certified for the following services and media types:
Facility-based Operation Endorsement for Hard Drive Overwriting,
Solid State Device Overwriting, Physical Hard Drive
& Solid State Device Destruction

OUR CERTIFIED PROCESS

Meets US Department of Defense (DoD) and Defense Security Services (DSS) requirements for sanitizing unclassified data.

NIST

Guarantees destruction of confidential and sensitive data in accordance with the National Institute of Standards and Technology (NIST).

Provides compliance under regulations such as GDPR, SOX, FACTA, HIPAA, GLBA, and PCI DSS.

Our data destruction service quickly & securely destroys any of the following media types:
